

Points of attention theory

- ✓ Suitable classroom for the theory training and/or exam
- ✓ Sufficiently strong Wi-Fi signal necessary
- ✓ We do not print course texts by default

Practical issues

- ✓ Personal protective equipment (PPE)
- ✓ Participants bring their own PPE: safety clothing, safety shoes, gloves and helmet, tested safety harness with lanyard (for aerial work platform and working safely at heights training)
- ✓ Minimum 1 machine per 4 participants
- ✓ Machines are technically in order and if required by law also inspected
- ✓ Always give us your brand and type in advance
- ✓ Manual is with the machine
- ✓ Our trainers do not know the operation of every machine by heart.

For logistics training: forklift, reachtruck, telehandler,...

- ✓ Sufficient practice space outside the production environment for the practical part (approx. 200m²)
- ✓ Pallet racking
- ✓ Slope of at least 10% and at least 2x the length of your machine
- ✓ 1 wooden or steel beam of approximately 4 meters
- ✓ Container or truck
- ✓ Loads or pallets of 1 meter high for stacking or de-stacking
- ✓ 10 pallets or cones for setting out a course

For building machines training: excavator, wheel loader, bobcat, ...

- ✓ Possibility to dig and scoop soil

For lifting training: rigging of loads, overhead crane, mobile crane, tower crane, rotating telehandler with hoist, ...

- ✓ Tested lifting accessories and rigging equipment

For firefighting training

- ✓ 4 to 6 available parking spaces, electrical socket
- ✓ Report fire or evacuation drill to emergency center 100/112 via e-mail at the latest 2 weeks before the exercise
- ✓ Telephone 112 on the day itself 5 minutes before and after the exercise

Points of attention for Besacc-VCA basic and VOL exams

- ✓ Exams are taken on laptops
- ✓ Sufficiently strong Wi-Fi signal necessary
- ✓ Each participant receives a different set of exams
- ✓ Reading exam only possible if requested in advance
- ✓ After registration it is no longer possible to change the language
- ✓ Translator not allowed
- ✓ Participants have knowledge of NL, FR or EN for explanation of exam procedure
